

Controller for DC brushless motor
Model：TD20065-V1.3-3
Maximum current：17A
Rated voltage：DC36V
Low voltage protection：DC31V±0.5V
Function:
1. sinusoidal brushless DC motor vector control (FOC)
2. liquid crystal instrument
3. third gear stepless speed regulation
4. low level brake
5. brake taillight
serial number：CX-ESA2.0/20210729(401060914-TRC658)SD20210726304O990
