

Controller for DC brushless motor

Model: TD18002-V1.3

Maximum current: 17A

Rated voltage: DC36V

Low voltage protection: DC31V±0.5V

Function:

1. sinusoidal brushless DC motor vector control (FOC)
2. liquid crystal instrument
3. third gear stepless speed regulation
4. low level brake
5. brake taillight

serial number: CX-ESA2.0/20200928(401060503-TRC364)SD20200918020
